Landscaping, Gardening and Agricultural Products

Our facility offers blends of compost, topsoil and two sizes of wood chips for your landscaping, gardening and agricultural needs. Delivery is available.

- 1. Quackenbush Blended Compost:** Grape pomace is added to our Quackenbush compost which increases the nutrient content of the compost. The compost has dark rich color and fine texture. The compost is screened to 3/8" minus. **Price \$35.00 per Ton Plus Tax**
- 2. Quackenbush Compost:** Is purely green-material compost. Composted for several months to give a rich color and a medium texture. Also screen to 3/8" minus. **Price \$25.00 per Ton Plus Tax**
- 3. Topsoil:** Topsoil is mixed with 60% compost and 40 % soil to be extra rich in organic matter great for new lawns, gardens and other applications. **Price \$35.00 Per Ton Plus Tax**
- 4. Wood Chips 3/8" Minus.** Finely ground screened to 3/8" minus good for topdressing and mulching. **Price \$25 per Ton Plus Tax**
- 5. Wood Chips 1"** Also has a golden color coarse texture, good topdressing. **Price \$25.00 per Ton Plus Tax**

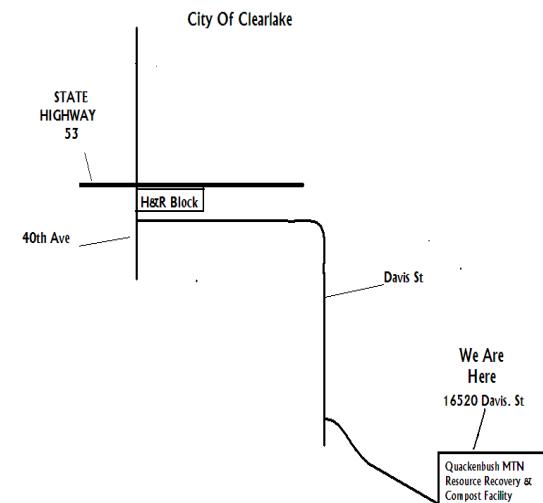

WE ALSO OFFER

Sustainable Base: Base is made from recycled concrete, asphalt, rock and ceramics. This product is then crushed and screened to 3/4" minus, making it excellent for driveways, roads and paths. It's an alternative to traditional Base Rock: **Price \$15.00 Per Ton Plus Tax**

SOIL ADMENDMENT SUGGESTIONS

One of the easiest ways to improve your soils structure is to add organic matter, Organic matter gives the soil more porosity which helps the soil retain water and also store oxygen which is necessary for plant growth. Our Blended Compost adds organic matter along with nutrients to help balance soil structure and promote plant growth.
